

# Interchangeable Decal Elements

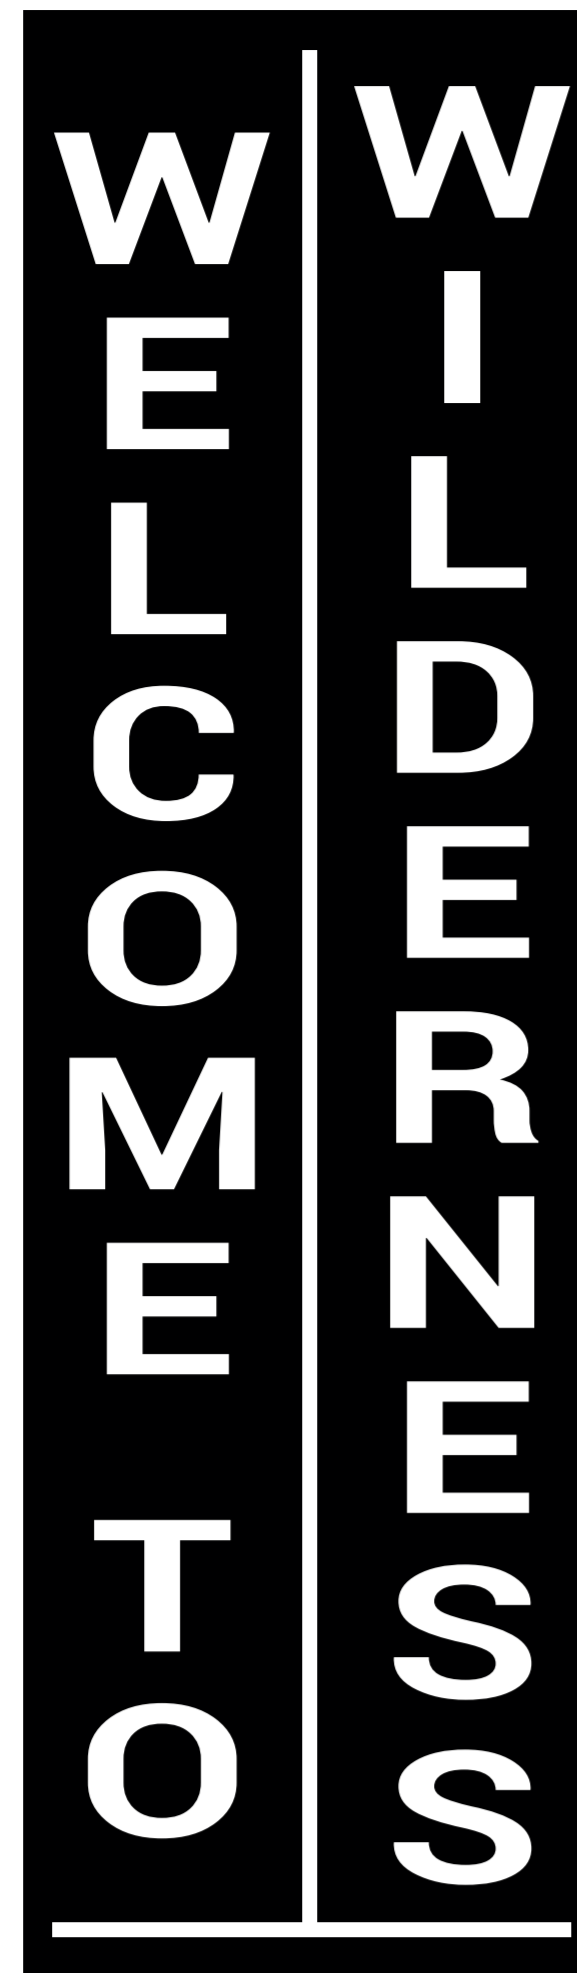

## Header

Illustration, accent color and designation text can change; overall layout is static.

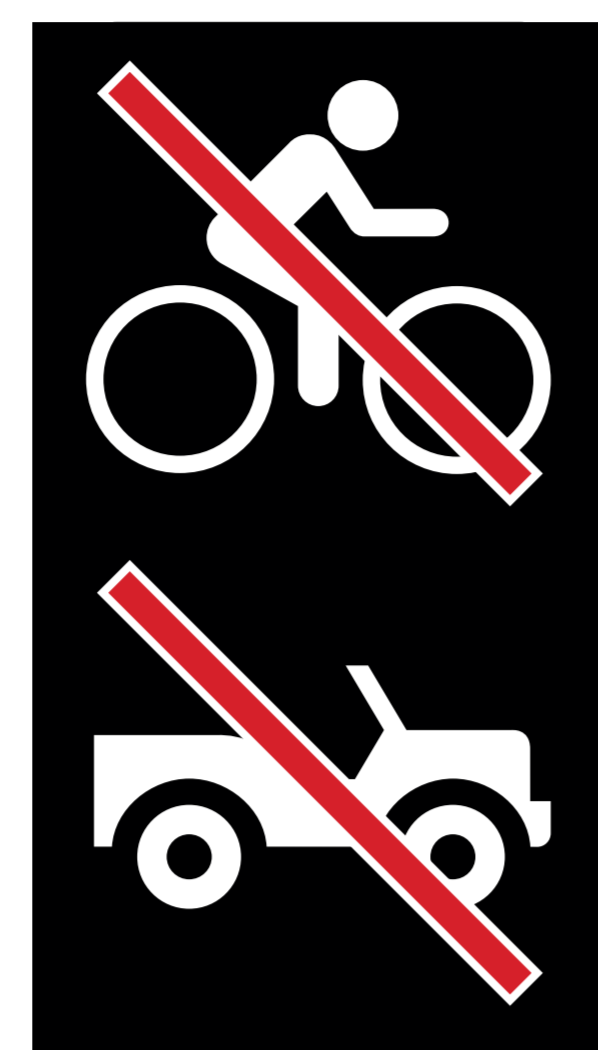

In wilderness/WSAs with high public use and also needing other identification signs, a custom illustration can be developed which can then be used on the decal square. Or, the decal can use a square from the standard options (right) or the state illustration (for units where public use does not justify a custom illustration or few/no portal signs are needed).

## Headline

Text changed to suit; see examples below.

## Uses

Closed to Bicycles and All Motorized Vehicles

No Bicycles or Motorized Vehicles Allowed

OPEN TO

CLOSED TO

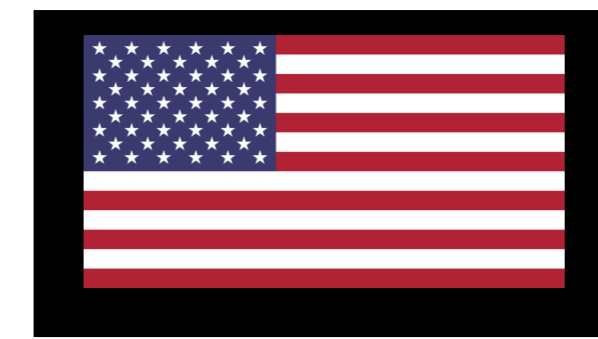

ONLY
